

## Hicksville High School

MUNICIPALITY: Hicksville School District & Town of Oyster Bay

LOCATION: Division Ave, Hicksville, New York

### Project Description:

This project was a joint venture between the Town of Oyster Bay and the Hicksville School District. We were contracted to fully replace an existing natural-grass field and running track and replace it with a synthetic field, poured resilient track system and new field events, all complying with NCAA standards.

### Project Elements:

- Multi-purpose synthetic-turf field with under-drain system
- Six-lane NCAA regulation-size track, field events and poured resilient-track surfacing
- Site storm-water collection system
- Custom scoreboard designed for all sports
- Perimeter fencing and removable lacrosse safety netting
